Appl. No. 09/931,896
Amdt. dated April 8, 2005
Reply to Office action of November 5, 2004

The Examiner has rejected claims 5, 7-8 and 11 as being unpatentable over Giniger et al. (US 6,199,045) in view of Kitano et al. (US 5,926,116) and in further view of Camhi (US 5,825,283). The claims are considered obvious according to the three patents.

As for claims 3 and 10, the Applicants object that since claims 5, 7-8 and 11 ultimately depend from claim 1 which is believed to be novel and distinctly patentable from Giniger et al., it follows that claims 5, 7-8 and 11 cannot be obvious over Giniger et al. in view of Kitano et al. and Camhi.

The Applicants thus traverse the rejection of claims 3, 5, 7-8, 10 and 11 since they ultimately depend on claim 1 which the Applicants believe to be distinctly patentable from Giniger's system. Moreover, the currently amended claim 1 should clarify the distinction between the Applicants' invention and Giniger et al. invention and remove all objections over Giniger et al.

Considering the above arguments, the Applicants respectfully request that a timely Notice of Allowance be issued in this case for all pending claims.

Respectfully submitted,
